Table of Contents

1. Introduction	3
2. Chapter I - Compliance Assistance Resources	4
A. Clean Water Act - Wet Weather	4
a. CAFO	4
b. CSO/SSO.....	6
c. Storm Water	12
B. Clean Air Act - NSR/PSD	13
C. Clean Air Act - Air Toxics	14
D. RCRA - Mineral Processing.....	21
E. Petroleum Refinery Sector	23
F. Tribal	26
3. Chapter II - Compliance Monitoring Resources	47
A. Clean Water Act - Wet Weather	47
B. Clean Air Act - Air Toxics	47
4. Chapter III - Enforcement Resources	54
A. General Resources	54
B. Clean Water Act - Wet Weather	54
C. Clean Air Act - NSR/PSD	54
D. RCRA - Mineral Processing	55
E. Petroleum Refinery Sector	55
F. Tribal.....	56

Introduction

The Office of Enforcement and Compliance Assurance (OECA) has developed this Compliance Assurance Resources Compendium which contains over 400 web links to various types of resources - policies, guidance training, guidebooks, Web sites, fact sheets, etc.- to help Regions, states and tribes in implementing the performance-based strategies for each of the national enforcement and compliance priorities for FY2005-2007. This information should also be useful for members of the regulated community as well. The Compendium is located on the National Environmental Compliance Assistance Clearinghouse and on OECA's Home Page as a pdf file at <http://epa.gov/compliance/resources/publication/planning/priorities.pdf>

This Compendium provides Compliance Assistance, Compliance Monitoring, and Enforcement resources for the following priorities in separate chapters.

FY2005- 2007 National Compliance and Enforcement Priorities are:

- Clean Water Act - Wet Weather
 - ▶ Combined Animal Feeding Operations (CAFOs)
 - ▶ Combined Sewer Overflows (CSOs) /Sanitary Sewer Overflows (SSOs)
 - ▶ Storm Water
- Clean Air Act - New Source Review/Prevention of Significant Deterioration
- Clean Air Act - Air Toxics
- Resource Conservation and Recovery Act - Mineral Processing & Financial Responsibility
- Petroleum Refinery Sector
- Tribal

Chapter I - Compliance Assistance Resources

A. Clean Water Act - Wet Weather

Concentrated Animal Feeding Operations (CAFO)

1. Profile of the Agriculture Livestock Production Industry

<http://www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/live.html>

2. "Agriculture 101" On-line learning curriculum

These self-paced educational materials include general information about the livestock industry, terminology, equipment, and environmental impacts. Information about beef, dairy, poultry and swine production, with illustrations and diagrams.

<http://www.epa.gov/agriculture/ag101/index.html>

3. Water Quality and Animal Feeding Operations (AFOs) Overview

Provides definitions of AFOs and CAFOs and an overview of related water quality concerns.

<http://www.epa.gov/npdes/afo>

4. National Agriculture Compliance Assistance Center

The National Agriculture Compliance Assistance Center is the "first stop" for information about environmental requirements that affect the agricultural community. The Ag Center was created by the U.S. Environmental Protection Agency (EPA) with the support of the U.S. Department of Agriculture(USDA). Through this web site and other channels, the Center offers comprehensive, easy-to-understand information about compliance.

<http://www.epa.gov/agriculture/>

5. Ag Center: Animal Feeding Operations Web Page

The Ag Center has information about animal feeding operations with information on production, best management practices, education and training, compliance and enforcement, laws and research. There are links to additional information at USDA's NRCS and CSREES offices and state and university information.

<http://www.epa.gov/agriculture/anafoidx.html>

6. **Region 3 CAFO Web Page**

<http://www.epa.gov/reg3wapd/nps/afo/index.htm>

7. **Region 5 CAFO Web Page**

<http://www.epa.gov/R5water/npdestek/npdcafohome.htm>

8. **Region 6 CAFO Web Page**

<http://www.epa.gov/Arkansas/6en/w/cafo/home.htm>

9. **Region 7 CAFO Web Page**

Information on Region 7's CAFO permits and inspection program, where to get permits, contacts, etc.

<http://www.epa.gov/region07/water/cafo/index.htm>

10. **Region 8 CAFO Web Page**

<http://www.epa.gov/Region8/water/wastewater/cafohome/cafohome.html>

11. **US EPA, R9 Animal Waste Management**

Animal feeding operations (AFOs) are livestock operations, such as dairies, hog, and chicken farms, that confine and concentrate animals and their waste. AFOs remain a source of water and air pollution in EPA Region 9 and around the nation. This Web site describes the problems associated with AFOs and improper animal waste management, and the efforts of EPA and its state partners to prevent AFO pollution in Arizona, California, Hawaii, and Nevada.

http://www.epa.gov/region09/cross_pr/animalwaste

12. **Brochures on EPA's Region 10 Animal Feeding Operation (feedlot) Inspections**

Brochures regarding EPA's Animal Feeding Operation (feedlot) inspections in Idaho, in Oregon and in Washington. Brochures are in PDF format.

<http://yosemite.epa.gov/R10/WATER.NSF/cafd656440c6ea882564f4007dd572/d278bce32a8e01be88256af9000355bc?OpenDocument>

CSO/SSO Resources

13. **Contact the EPA's Office of Wastewater Management**

The email address and form for submitting questions to the Office of Wastewater Management. One email address is used for multiple programs within the Office of Wastewater Management , but a pull-down menu allows you to specify the topic related to your question.

<http://www.epa.gov/owm/contactowm.htm>

14. **Wet Weather - Frequently Asked Questions**

Frequently asked questions about the NPDES program by wet weather subject area.

http://cfpub2.epa.gov/npdes/faqs.cfm?program_id=0

15. **Wet Weather Document list**

Publications List

<http://www.epa.gov/owm/catpub.htm>

16. **Water Quality and Animal Feeding Operations (AFOs)**

Provides definitions of AFOs and CAFOs and an overview of related water quality concerns.

http://cfpub.epa.gov/npdes/home.cfm?program_id=7

17. **Office of Wastewater Management Frequently Asked Questions**

Provides links to Office of Wastewater Management FAQ sites which answer questions related to a variety of different topic areas.

<http://www.epa.gov/owm/faqall.htm>

18. **EPA Regional 104(g) Coordinators**

A list of Regional and Headquarters contacts for the Wastewater Treatment Plant On-site Assistance Operator Training Program

<http://www.epa.gov/owm/mab/smcomm/104g/index.htm>

19. **Wastewater Management 104(g)(1) Training Centers**

Links to Wastewater Management Training Centers by State and Region. Specific contact names and full contact information are given.

<http://www.epa.gov/owm/mab/smcomm/104g/index.htm>

20. **Industrial Pretreatment - Contacts**

Links to Industrial Pretreatment contacts for EPA Headquarters, EPA Regions, and States.

http://cfpub.epa.gov/npdes/contacts.cfm?program_id=3&type=ALL

21. **Office of Wastewater Management Indian Program Coordinators and Other Contacts**

An extensive list of links to Indian program coordinators and other contacts related to Wastewater Management.

<http://www.epa.gov/owm/mab/indian/contacts.htm>

22. **National Pollutant Discharge Elimination System (NPDES) Permitting Program Contacts**

Links to EPA Regional and State contacts for NPDES permits.

http://cfpub2.epa.gov/npdes/contacts.cfm?program_id=0&type=NPDES

23. **Office of Wastewater Management Organizational Chart**

Provides the names of individuals in the management structure of the Office of Wastewater Management.

<http://www.epa.gov/owm/about2.htm>

24. **Clean Water Act Section 104(b)(3) Water Quality**

List of EPA Regional coordinators for Section 104(b)(3) of the Clean Water Act.

<http://www.epa.gov/owm/mab/indian/104coord.htm>

25. **Office of Wastewater Management-Environmental Management Systems/ISO 14001**

Guidance, Reports and Frequently Asked Questions regarding EMS

<http://www.epa.gov/owm/iso14001/isofaq.htm>

26. **Environmental Management Systems/ISO 14001-Publications: Voluntary Environmental Management Systems/ISO 14001**

EMS Implementation Guide for Small and Medium Sized Organizations

<http://www.epa.gov/owm/iso14001/wm046200.htm#guide1>

27. **National Pollutant Discharge Elimination System (NPDES) Permitting Program**

Overview, Training, Permit Application Forms, Contacts and other information

regarding this program.
<http://cfpub2.epa.gov/npdes/>

28. **Industrial Pretreatment Program**

Overview of Industrial Pretreatment Program at EPA
<http://www.epa.gov/npdes/pubs/final99.pdf>

29. **FAQ's about Industrial Wastewater Pretreatment**

Frequently Asked Questions about Industrial Wastewater Pretreatment
http://cfpub2.epa.gov/npdes/faqs.cfm?program_id=3

30. **Waste Water Information, NPDES permitting**

Waste Water Facilities which discharge pollutants from point sources (such as discharge pipes) into waters of the United States are required to obtain National Pollutant Discharge Elimination System (NPDES) permits. The NPDES wastewater permitting program addresses discharges from municipal sewage ...[more]
<http://www.epa.gov/region02/water/wastetop.htm>

31. **Effluent Guidelines Plan**

The Effluent Guidelines Plan provides an overview of the Effluent Guidelines Program. It lists ongoing and future effluent guidelines projects and preliminary studies. The Plan is published biennially in the Federal Register. This page provides links to these FR notices as well as fact sheets and related information.
<http://www.epa.gov/OST/guide/plan.html>

32. **Office of Wastewater Management Financial Assistance**

As a leader in wastewater control, OWM is involved in many activities that promote improved wastewater treatment. The Office provides direction and assistance to national, State, and local programs for the abatement and prevention of municipal water pollution. The following pages provide an overview of some of these assistance efforts.
<http://www.epa.gov/owm/cwfinance/index.htm>

33. **Waste water Treatment Technology Fact Sheets**

Links to numerous fact sheets on specific technologies related to Combined Sewer Overflows treatment, storm water, disinfection, biological treatment, and others.
<http://www.epa.gov/owm/mtb/mtbfact.htm>

34. **Waste Water Programs for Small Communities**

Protecting public health and improving water quality are the major goals of the Clean Water Act. Small Communities, Indian Tribes and Colonias often experience difficulty in achieving these goals. Many communities and tribes could avoid costly construction projects through improved management skills, adequate financing, appropriate technology, and better wastewater treatment system operation and maintenance. The Office of Wastewater Management provides water and wastewater services to tribal and community leaders through its "Small Communities Team." The team partners with organizations to manage programs of technical assistance, financial assistance, and education & training to small communities and Indian tribes. EPA has created a site for onsite/decentralized wastewater systems that provides information on management, funding, technology, and public outreach to assist small communities when using or considering decentralized systems to manage their wastewater needs. These programs are summarized below.

<http://www.epa.gov/owm/mab/smcomm/index.htm>

35. **Office of Wastewater Management Catalogue of Publications**

OWM Catalog of Publications [LISTED BY SECTION] Biosolids Construction Grants Finance Miscellaneous Needs and Assessments Operation and Maintenance Permitting Issues Pollution Prevention and Control Pretreatment Small Communities Storm Water / Combined Sewer Overflows Treatment Water Conservation and Efficiency Water Quality and Standards Federal Register

<http://www.epa.gov/owm/catpub.htm>

36. **Office of Wastewater Management Indian Program**

Links to OWM tribal financial assistance programs and initiatives, contacts, Publications and success stories

<http://www.epa.gov/owm/mab/indian/index.htm>

37. **National Pollutant Discharge Elimination System (NPDES) Program**

Links to information on: biosolids, concentrated animal feeding operations, permitting, and pretreatment.

<http://www.epa.gov/region8/water/wastewater/wastewater.html>

38. **NPDES Training Courses**

The EPA offers numerous courses to explain the regulatory framework and technical considerations of NPDES and some of its supporting programs. These courses are designed for permit writers, industrial dischargers, EPA officials, and other interested parties. Click on the link below to learn more about these courses. NPDES Permit Writers' Training Course, Pretreatment Training Course, Whole Effluent Toxicity

39. **FAQ's about the National Pollutant Discharge Elimination System (NPDES)**

Frequently Asked Questions about this permitting program.

http://cfpub2.epa.gov/npdes/faqs.cfm?program_id=0

40. **NPDES Permit Application Forms**

The following NPDES permit applications are in Adobe Acrobat PDF format. You can obtain a FREE copy of Adobe Acrobat Reader by clicking on the icon below.

Form 1: General Information (must be submitted by all facilities applying for an individual NPDES permit, with the exception of MS4s) 2A: " NEW " Application for permit to discharge municipal wastewater from publicly owned treatment works (POTWs) 2B: Application for permit to discharge wastewater - concentrated animal feeding operations and aquatic animal production facilities 2C: Application for permit to discharge wastewater - existing manufacturing, commercial, mining and silvicultural operations (Revisions proposed for Form 2C have been discontinued.) 2D: Application for permit to discharge process wastewater - new sources and new dischargers 2E: Application for facilities which do not discharge process wastewaters 2F: Application for permit to discharge storm water associated with industrial activity 2S: " NEW " Application for sewage sludge (biosolids) permit for treatment works treating domestic sewage (TWTDS)

<http://www.epa.gov/owm/sectstm.htm>

41. **NPDES Permit Program - Publications**

Select documents and fact sheets with brief descriptions and links to on-line versions or ordering information

<http://cfpub.epa.gov/npdes>

42. **Region 3's Water Protection Division: Programs and Initiatives**

A list of links to programs and initiatives

<http://www.epa.gov/reg3wapd/programs.htm>

43. **US EPA REGION 3 WPD - NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PROGRAM**

45. **Region 6 National Pollutant Discharge Elimination System Public Notices**

This page has links to general permits, notice to withdrawal of NPDES Permits, and state NPDES web sites.
<http://yosemite.epa.gov/r6/genper.nsf/WebView?OpenForm&Start=1&Count=30&Expand=4>

46. **Region 8 Industrial Pretreatment Program**

The Industrial Pretreatment Program prevents the discharge of pollutants to Publicly-Owned Treatment Works (POTWs) which will interfere with the operation of the POTW or its use and disposal of municipal biosolids. In addition, the Pretreatment Program prevents the introduction of pollutants to POTWs that may pass through into rivers, lakes and streams causing toxicity or other impacts.
<http://www.epa.gov/region08/water/wastewater/prethome/prethome.html>

47. **State and Local Pretreatment Program Contacts**

Click on the state of interest. A page with contact information for that state will appear.
<http://www.epa.gov/region08/water/wastewater/prethome/contacts/contacts.html>

48. **NPDES Permitting State Contacts**

name, address, phone, e-mail, fax
<http://www.epa.gov/Region8/water/wastewater/wastewater.html>

49. **National Pollutant Discharge Elimination System (NPDES) Permitting Program**

Region 9 Draft Guidance for Permitting NPDES Discharges into Impaired Waterbodies in the Absence of a TMDL
<http://www.epa.gov/region09/water/npdes/index.html>

50. **Region 10 Contacts for NPDES Compliance**

Contacts for Region 10 NPDES Compliance Unit. Contacts include Unit Manager, seafood permits, biosolids, and concentrated animal feeding operations (CAFOs).
<http://yosemite.epa.gov/r10/water.nsf/cafddd656440c6ea882564f4007dd572/06b2b994a02a88bd88256c9c00669f6e?OpenDocument>

60. List of National EPA Stormwater Contacts

<http://www.epa.gov/region8/water/stormwater/nationalcontacts.html>

61. Region 8 Storm Water Permitting Program

Congress amended the Clean Water Act in 1987 which required EPA to develop a two-phased approach to permitting storm water discharges.
<http://www.epa.gov/region8/water/stormwater/>

62. National Enforcement Training Institute has training materials on storm water and NPDES programs in general
www.netionline.com

63. Stormwater Month Outreach Materials has educational information on storm water prevention especially for Municipalities.
<http://cfpub2.epa.gov/npdes/stormwatermonth.cfm>

64. The storm water "weather channel" has information that was presented in the film " After the Storm" which was on television.
<http://www.epa.gov/weatherchannel/>

B. Clean Air Act - NSR/PSD

1. New Source Review Policy and Guidance Database

EPA has issued a number of policy and guidance documents that interpret the New Source Review (NSR) and Prevention of Significant Deterioration (PSD) construction

permit regulations. Region 7 has developed a searchable database which contains over 400 EPA-issued policy and guidance documents.

<http://www.epa.gov/region07/programs/artd/air/nsr/nsrpg.htm>

2. Title V Policy and Guidance Database

EPA has issued a number of policy and guidance documents that interpret title V and its regulations. We have developed a searchable database which contains over 140 EPA-issued policy and guidance documents.

<http://www.epa.gov/region07/programs/artd/air/title5/title5pg.htm>

3 New Source Performance Standards

New Source Performance Standards Section 111 of the Clean Air Act, "Standards of Performance of New Stationary Sources," requires EPA to establish federal emission standards for source categories which cause or contribute significantly to air pollution. These standards are intended to promote ...[more]

<http://www.epa.gov/region07/programs/artd/air/nsps/nsps.htm>

C. Clean Air Act - Air Toxics

1. EPA Air Toxics Program Contacts

A listing of headquarters and regional contacts for the Air Toxics program. Includes phone and e-mail addresses. Maintained by the EPA Office of Air Quality Planning and Standards (OAQPS)

<http://www.epa.gov/ttnamtl1/airtxcon.html>

2. Technology Transfer Network Air Toxics Web site

<http://www.epa.gov/ttn/atw/index.html>

3. Transportation Air Quality Center

EPA's Transportation Air Quality (TRAQ) Center provides state and local air quality regulators and transportation planners with access to critical information regarding transportation programs and mobile source incentive-based programs, partnership opportunities, grant funding sources, useful contact names, and technical assistance.

<http://www.epa.gov/oms/transp.htm>

4. OAQPS Education and Outreach Group

EOG provides technical air training, education, and outreach to support state, local, and tribal air quality programs. EOG operates the Air Pollution Training Institute; the Air Pollution Distance Learning Network; supports development of environmental educational materials; establishes Air Quality Learning Centers; and outreaches to

small businesses, compliance assistance providers, industry, and public information officers. <http://www.epa.gov/oar/oaqps/eog/>

5. **Clean Air Act Applicability Determination Index (ADI)**

The Applicability Determination Index (ADI) is a database that contains memoranda issued by EPA on applicability and compliance issues associated with the New Source Performance Standards (NSPS), National Emissions Standards for Hazardous Air Pollutants (with categories for both NESHAP, Part 61, and MACT, Part 63), and chlorofluorocarbons (CFC). There are also separate categories for asbestos (Part 61, Subpart M) and woodstoves (Part 60, Subpart AAA).

<http://www.epa.gov/compliance/assistance/applicability/caa.htm>

6. **Guidance On Implementation Of EPA's Penalty/Compliance Order Authority Against Federal Agencies Under The Clean Air Act (CAA)**

This document clarifies EPA's authorization to assess administrative civil penalties or issue compliance orders against federal agencies

<http://www.epa.gov/compliance/resources/policies/civil/federal/caagui98.pdf>

7. **Continuous Emissions Monitoring Fact Sheet**

Presents Frequently Asked Questions and links to Frequently Asked Questions for Continuous Emissions Monitoring (CEM).

<http://www.epa.gov/airmarkets/monitoring/factsheet.html>

8. **Office Contacts Within The Office Of Air And Radiation**

A comprehensive listing of office and division level contact links for the EPA Office of Air and Radiation.

<http://www.epa.gov/oar/oarofcs.html>

9. **EPA Office of Mobile Sources (OMS) Contacts**

This page provides links to a comprehensive listing of contact information for Office of Mobile Sources (OMS). Information is presented by topic area.

<http://www.epa.gov/oms/oms-cont.htm>

10. **FAQs About the Office of Air and Radiation**

Provides answers to Frequently Asked Questions related to Office of Air and Radiation office and program level topics.

<http://www.epa.gov/oar/oarfaq.html>

11. **What's New in the Office of Transportation and Air Quality**

Highlights recently developed regulations and reports related to air emissions from mobile sources.

<http://www.epa.gov/oms/whatsnew.htm>

12. **Aerospace Manufacturing and Rework Facilities - Air Transportation Compliance Assistance Center**

The center is maintained by EPA's Office of Enforcement and Compliance Assurance (OECA) and provides multimedia information for the air transportation industry. Also linkable from the UATW aerospace site (www.epa.gov/ttn/uatw/aerosp/aeropg.html). Once you link to the UATW, form can be found under the "Implementation Information," "Compliance and Enforcement Information" section.

<http://www.transource.org>

13. **EPA's Office of Air and Radiation**

Homepage of the U.S. EPA's Office of Air and Radiation.

<http://www.epa.gov/air/index.html>

14. **EPA's Plain English Guide to the Clean Air Act**

Well-written overview of the Clean Air Act and its Amendments.

http://www.epa.gov/oar/oaqps/peg_caa/pegcaain.html

15. **EPA's Technology Transfer Network**

The Technology Transfer network is one of the original EPA on-line sources for information, and has a large collection of files, tools, and pollution prevention case studies.

<http://www.epa.gov/ttn/>

16. **FACT SHEET - Revision to Definition. Of VOC**

Announces final rule clarifying that three halogenated compounds should no longer be considered VOCs.

<http://www.epa.gov/ttn/oarpg/t1fs.html>

17. **Guidance on Mitigation of Impact to Small Business while Implementing Air Quality Standards and Regulations**

On July 16, 1997, President Clinton directed the EPA to implement the newly revised ozone and particulate matter National Ambient Air Quality Standards (NAAQS) in a common-sense, cost-effective manner. An important element of the President's message was the directive to "work with the States to include in their SIPs flexible regulatory alternatives that minimize the economic impact and paperwork

burden on small businesses to the greatest possible degree consistent with public health protection." this guidance addresses this directive by outlining potential implementation strategies that would mitigate adverse impacts on small sources, and by encouraging States to make use of these strategies wherever possible and appropriate.

<http://www.epa.gov/ttn/oarpg/t1/memoranda/guidance.pdf>

18. **Definition of "Regulated Air Pollutant"**

This April 26, 1993 memo from Lydia Wegman of EPA's Office of Air Quality Planning and Standards (OAQPS) defines regulated air pollutants for purposes of Title V. This guidance lists the following as regulated pollutants: NO_x and VOC (as ozone precursors); all pollutants for which a NAAQS has been promulgated (e.g., SO₂, CO); any pollutant subject to a promulgated NSPS; any of the ozone-depleting substances specified as Class I or II under Title VI; and any pollutant subject to a standard promulgated under §112 or other requirements established under §112, including §112(g)(2), (j), and (r).

<http://www.epa.gov/ttn/oarpg/t5/memoranda/rapdef.pdf>

19. **PM₁₀ as the Regulated Pollutant for Title V**

This guidance clarifies how particulate matter is to be considered for purposes of Title V

<http://www.epa.gov/ttn/oarpg/t5/memoranda/whitmore.pdf>

20. **Title V Interim Program. Approval Guidance**

This memo explains EPA's criteria for granting interim Title V program approvals. Interim approval is discretionary and will be granted only where such is found to be in the best interests of the Title V permitting program. It can be granted only to programs that "substantially" meet the requirements of Title V.

<http://www.epa.gov/ttn/oarpg/t5/memoranda/interim.pdf>

21. **Clearinghouse for Inventories and Air Emission Factors**

This site, maintained by EPA's Emission Factor and Inventory group, provides access to the latest information and tools for estimating emissions of air pollutants and performing air emission inventories.

<http://www.epa.gov/ttn/chief/>

22. **Description of the CAA Operating Permit Program**

Operating permits are comprehensive regulatory documents which consolidate Federal, State, and local requirements applicable to air pollution sources.

<http://www.epa.gov/oar/oaqps/permits/>

<http://www.epa.gov/region4/air/enforce/policy.htm>

32. **Region 4 Title V Permits Program Contacts**

This page is a list of state/local contacts for EPA Region 04 Title V Permits Program. The site is dated 8/99 and includes tables of state/local contacts for the eight states in this region, contacts for the Acid Rain Program, and contacts for special emphasis areas within the Title V Program.
<http://www.epa.gov/region04/air/permits/contact.htm>

33. **Region 4 FAQs About Asbestos NESHAP**

Answers Commonly Asked Questions about Asbestos and associated regulatory requirements in Region 4.
<http://www.epa.gov/region4/air/asbestos/asbqa.htm>

34. **Region 4 - State/Local Title V Permitting Contacts**

This page provides State and Local Title V Permitting contacts for Region 4.
<http://www.epa.gov/region4/air/permits/t5states.htm>

35. **USEPA Region 5's Air Quality Page**

How does EPA evaluate air quality? U.S. EPA uses six "criteria pollutants" as indicators of air quality: ozone, carbon monoxide, nitrogen dioxide, sulfur dioxide, particulate matter and lead. For each of these, U.S. EPA has established "primary" standards to protect public health, and "secondary" s....[more]
<http://www.epa.gov/ARD-R5/naaqs/naaqs.htm>

36. **USEPA, ARD, Compliance Assurance**

COMPLIANCE ASSURANCE U.S. EPA encourages industries to voluntarily observe the regulations of the Clean Air Act. For each new Federally promulgated regulatory

program, we develop compliance strategies to help industries achieve the highest possible compliance. Strategies include: 1) an outreach pla....[more]
<http://www.epa.gov/ARD-R5/enforce/ca.htm>

37. **Air Toxics - Region 5**

Air Toxics Medical Waste Incinerators Asbestos The Asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP) generally governs the renovation and demolition of buildings that may contain asbestos. Asbestos Documents - General information and a detailed explanation of the asbestos NE....[more]
<http://www.epa.gov/ARD-R5/toxics/toxics.htm>

38. **Region 6 Air Programs**

This page is an overview of Region 6's Air Program with links.
http://www.epa.gov/earth1r6/6pd/air/air_main.htm

39. **Air Quality Modeling**

Air quality models are used as a basis to assess the impact of sources of emissions and to develop control strategies. These strategies are applied to the State Implementation Plan revisions to provide a basis for approvable control strategies. The modeling is also used for new source reviews, and prevention of significant deterioration review. EPA has developed a limited number of models suitable for regulatory application. Other acceptable models have been developed by private firms.
<http://www.epa.gov/earth1r6/6pd/air/pd-l/model.htm>

40. **Policy and Guidance**

The Air Program periodically develops policy and guidance documents that help to interpret a set of rules or other requirements. In keeping with EPA's goal to enhance public access to non-routine decisions by the Regions and National Program Offices and other documents of public interest, we will make our policy and guidance documents available through this web site.
<http://www.epa.gov/region07/programs/artd/air/policy/policy.htm>

41. **Region 8 Air Program**

This page provides links to: Air Quality Data, Air Planning Section, Air Monitoring, Permitting, and Indoor Air Quality.
<http://www.epa.gov/region8/air/>

42. **Region 9 Air Program State and Local Contacts**

State and Local contacts for the Region 9 Air Programs.
<http://www.epa.gov/region09/air/acomment.html>

43. **Region 9 Air Permits Program FAQs**

An extensive list of Frequently Asked Questions about the Region 9 Air Permits Program.
<http://www.epa.gov/region09/air/permit/pmfaq.htm>

D. RCRA - Mineral Processing

1. **Mineral Processing Wastes**

This Web page is intended to provide compliance assistance to the mineral processing sector, and to assist state regulators and the public in understanding the federal requirements on the disposal of mineral processing wastes. Regulation affecting mineral processing wastes was developed through a long process covering the period 1980 to 1991. It involved numerous proposed and final rule makings and federal litigation. If a company is generating non-exempt hazardous wastes, it may need to obtain a permit from an authorized state or EPA Region.
<http://www.epa.gov/compliance/assistance/sectors/minerals/processing/index.html>

2. **Profile of the Non-fuel, Non-metal Mining Industry**

One of a series of general interest guides (notebooks) that provide information regarding industry-specific manufacturing processes and pollution issues. This notebook covers facilities engaged in mining or quarrying, developing mines, or exploring for non-fuel, nonmetallic minerals such as dimension stone; crushed and broken stone; sand and gravel; clay, ceramic, and refractory minerals; chemical and fertilizer minerals; and other miscellaneous non-fuel, nonmetallic minerals. This notebook also covers facilities engaged in crushing, grinding, and washing nonfuel, nonmetallic minerals.
<http://www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/index.html>

3. **Profile of the Metal Mining Industry**

One of a series of general interest guides (notebooks) that provide information regarding industry-specific manufacturing processes and pollution issues. This notebook covers facilities engaged primarily in exploring for metallic minerals, developing mines, and ore mining.
<http://www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/index.html>

4. **Profile of the Nonferrous Metals Industry**

One of a series of general interest guides (notebooks) that provide information regarding industry-specific manufacturing processes and pollution issues. This notebook covers facilities that are involved in primary and secondary nonferrous metals processing. This notebook includes the four most widely used nonferrous metals in the United States; aluminum, copper, lead, and zinc.
<http://www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/index.html>

5. **Sector Facility Indexing Project**

The Sector Facility Indexing Project (SFIP), a pilot program developed by EPA, integrates and provides public access to more environmental information than has ever before been available to the public in one location. SFIP profiles approximately 640 individual facilities in five industrial sectors: automobile assembly, pulp manufacturing, petroleum refining, iron and steel production, and the primary smelting and refining of aluminum, copper, lead, and zinc (nonferrous metals). SFIP provides environmental data about each facility, such as the number of inspections, compliance with federal regulations, enforcement actions taken, chemical releases, and spills.
<http://www.epa.gov/sfipmtnl>

6. **Secondary Lead Smelters - Final Rule**

Subpart X - Final Rule for new and existing secondary lead smelters, 6/23/95, 60 FR 32587
<http://www.epa.gov/ttnatw01/leadp/fsleadsm.html>

7. **Mineral Wool Production - Final Rule**

Subpart DDD - Final NESHAP for Mineral Wool Production, 64 FR 29489, 6/1/99
<http://www.epa.gov/ttnatw01/minwool/fr01jn99.html>

8. **Rule & Implementation Information for the Primary Aluminum Industry**

Implementation and Compliance information for the National Emission Standard Primary Aluminum Reduction Plants
<http://www.epa.gov/ttn/atw/alum/alumpg.html>

9. **Mining Wastes**

<http://www.epa.gov/epaoswer/other/mining.htm>

10. **National Pollutant Discharge Elimination System (NPDES)**

Regulation of the mining sector involves every major EPA program. Mining operations generate tailings and waste rock that must be disposed of, and create wastewater

discharges and air emissions. As a result, mining can affect surface and ground water quality, drinking water supplies and air quality. Impacts from operating and abandoned mines can also cause extensive losses of aquatic and terrestrial habitat.
http://cfpub.epa.gov/npdes/indpermitting/mining.cfm?program_id=14

11. USGS Minerals Information

Statistics and information on the worldwide supply, demand, and flow of minerals and materials essential to the U.S. economy, the national security, and protection of the environment.

<http://minerals.er.usgs.gov/minerals/>

12 Inorganic Chemical Manufacturing Wastes

Information and regulations regarding newly-listed wastes.

<http://www.epa.gov/epaoswer/hazwaste/id/inorchem/index.htm>

E. Petroleum Refinery Sector

1. Profile of the Petroleum Refining Industry

One of a series of general interest guides (notebooks) that provide information regarding industry-specific manufacturing processes and pollution issues. This notebook covers the petroleum refining industry which includes the production of petroleum products through distillation and fractionation of crude oil, redistillation of unfinished petroleum derivatives, cracking, or other processes.

<http://www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/petroleum.html>

2. Sector Notebook Data Refresh - 1997

This document is part of the Office of Compliance's Sector Notebook Series. This document was developed to update the time sensitive data presented in the original set of 26 sector notebooks which were published in 1995 and 1997.

http://www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/data_refresh.html

3. Common Sense Initiative

The Common Sense Initiative was an innovative approach to environmental protection and pollution prevention developed by the U.S. EPA. The Initiative addresses environmental management by industrial sector rather than by environmental medium (air, water, land). EPA selected six industries to serve as CSI pilots: automobile manufacturing, computer and electronics, iron and steel,

metal finishing, petroleum refining, and printing. Six sector subcommittees, each consisting of representatives from industry, environmental justice organizations, labor organizations, environmental organization, federal, state, and local governments, address environmental issues facing these industries. The CSI Initiative ended in 1998.

<http://www.epa.gov/sectors/pubs.html#csi>

4. **Sector Facility Indexing Project**

The Sector Facility Indexing Project (SFIP), a pilot program developed by EPA, integrates and provides public access to more environmental information than has ever before been available to the public in one location. SFIP profiles approximately 640 individual facilities in five industrial sectors: automobile assembly, pulp manufacturing, petroleum refining, iron and steel production, and the primary smelting and refining of aluminum, copper, lead, and zinc (nonferrous metals). SFIP provides environmental data about each facility, such as the number of inspections, compliance with federal regulations, enforcement actions taken, chemical releases, and spills.

<http://www.epa.gov/sfipmtn1/>

5. **Rule & Implementation Information for Coke Ovens**

<http://www.epa.gov/ttn/atw/coke2/coke2pg.html>

6. **Rule & Implementation for Gasoline Distribution MACT**

<http://www.epa.gov/ttnatw01/gasdist/gasdispg.html>

7. **Petroleum Refinery MACT Standard Guidance**

This manual assists refineries in determining the applicability of the new MACT standards to their operations, and provides guidance to assist facilities in achieving and maintaining compliance.

<http://www.epa.gov/compliance/resources/publications/assistance/sectors/mactdoc.pdf>

8. **Final Standards Promulgated for Petroleum Refining Wastes**

Announcement of the final rule to add four new RCRA hazardous waste codes.

<http://www.epa.gov/epaoswer/hazwaste/id/petroleum/etrofs6.pdf>

9. **Business Assistance Tools: Petroleum Refining Industry**

Links to pollution prevention and compliance assistance information from a variety of Web sites on the Petroleum Refining industry.

<http://es.epa.gov/cooperative/topics/petroleum.html>

10. **Oil Spill Program**

This is the home page for the EPA oil spill program.

<http://www.epa.gov/oilspill/index.htm>

11. **Reporting Oil Spills**

This site gives contact information for reporting oil spills.

<http://www.epa.gov/oilspill/contacts.htm>

12. **Laws and Regulations: Oil Spills**

This site lists the current laws and regulations and provide links to overviews, the legislative and regulatory text, and summaries of key provisions. The summaries will soon be linked to the relevant legal text.

<http://www.epa.gov/oilspill/lawsregs.htm>

13. **Oil Spill Publications**

This page provides access oil spill related documents

<http://www.epa.gov/oilspill/document.htm>

14. **Oil Pollution Prevention Regulation Overview**

This site provides an overview of EPA regulations addressing the oil spill provisions of the Clean Water Act (CWA).

<http://www.epa.gov/oilspill/opprover.htm>

15. **CAA - NSPS Subpart J Refinery Issues Compliance Assistance Information**

Background Information: U.S. EPA Region 6, American Petroleum Institute (API), and Texas Mid-Continent Oil & Gas Association (TMOGA) formed a Refinery Roundtable Workgroup. The Workgroup included a New Source Performance Standard (NSPS) Subpart J Subworkgroup. This subworkgroup concluded that an NSPS Subpart J document directed to refineries would assist the refinery community. The NSPS Subpart J document includes the Subpart J regulation with inserted boxes which summarize EPA determinations, guidance, policy and suggested work practices to aid in compliance. The documents summarized may be obtained from the TTNB. Documents posted on the EPA TTNB as of May 31, 1997 are included in this document. Efforts are underway to update this document to include future Subpart J EPA TTNB documents. Updates will be noted on this page. EPA is providing this document for compliance assistance to the petroleum industry on the WWW.

<http://www.epa.gov/earth1r6/6en/a/doc60.htm>

16. **Underground Injection Control**

<http://www.epa.gov/OGWDW/uic.html>

F. Tribal

Waste Issues in Indian Country – <http://www.epa.gov/tribalmsw/>

Solid Waste Material – www.epa.gov/tribalmsw/

1. Tribal Decision Makers Guide to Solid Waste Management, November 2003
www.epa.gov/tribalmsw/resource.htm#dmg
2. Open Dump Cleanup Project Helps Tribes Fight Waste
www.epa.gov/epaoswer/non-hw/tribal/pdftxt/opendump.pdf
3. Waste Reduction Tips for Hotels and Casinos in Indian Country
www.epa.gov/epaoswer/non-hw/tribal/pdftxt/casinotips.pdf
4. Training and Technical Assistance Directory for Tribal Solid Waste Managers

<http://www.epa.gov/garbage/backyard/pubs/tribal-leaders.pdf>
17. Reducing Backyard Burning in Indian Country
http://www.epa.gov/garbage/backyard/pubs/tribal_member.pdf

Hazardous Waste Material

18. RCRA Orientation Manual. Provides introductory information on solid and hazardous waste management program requirements under RCRA. Covers an introduction to RCRA; managing solid waste, hazardous waste, and underground storage tanks; RCRA's relationship to other environmental statutes; and public involvement requirements.
www.epa.gov/epaoswer/general/orientat/
19. Hazardous Waste Identification. Key information on how to identify whether and why waste is hazardous. www.epa.gov/epaoswer/hazwaste/id/
20. Catalog of Hazardous And Solid Waste Publications. Lists hazardous and solid waste documents released by EPA and that are frequently requested.
www.epa.gov/epaoswer/osw/catalog.htm

21. RCRA, Superfund and EPCRA Hotline Training Module: Introduction to: Hazardous Waste Identification. [Http://oaspub.epa.gov/webi/meta_first_new2.try_these_first](http://oaspub.epa.gov/webi/meta_first_new2.try_these_first)
22. FEMA's Community Emergency Response Training (CERT) for Tribal Nations www.fema.gov/regions/vii/cert_120902.shtm
23. North American Indian Tribes and Nations: Emergency Response Resources http://www.trex-center.org/tribal_er.asp

Training – Solid and Hazardous Waste

24. Compost Operator Training Workshop For Federally-Recognized Native American Tribes August 16-20, 2004. Qualla Boundary, Cherokee, NC. Simonson.davy@epa.gov
25. Solid Waste Training by the Solid Waste Alaska Network. <http://www.ccthita-swan.org/Tutorials/training.cfm>
26. Rural Community Assistance Program provides technical, financial management, and managerial support and training to tribal and rural communities with populations under 10,000. www.rcap.org/swp.html

Other Waste Related Issues – Construction and Demolition Waste

<http://www.epa.gov/tribalmsw/thirds/recandd.htm>

27. Construction Industry Compliance Assistance Center. Find plain language explanations of environmental rules for the construction industry. Also provided are links to detailed information, including state regulations and other resources. This web site is being developed by the National Center for Manufacturing Sciences, in conjunction with: (1) Associated General Contractors of America; (2) National Association of Home Builders; (3) American Road and Transportation Builders Association; (4) Associated Builders and Contractors Inc; and (5) Golf Course Builders Association of America. <http://www.cicacenter.org/>
28. Characterization of Building-Related Construction and Demolition Debris in the United States. Report characterizes the quantity and composition of building-related construction and demolition (C&D) debris generated in the United States and summarizes the waste management practices for this waste stream. www.epa.gov/epaoswer/hazwaste/sqg/c&d-rpt.pdf
29. Residential Construction Waste Management: A Builder's Field Guide: How to save money and landfill space. EPA-funded publication from the National Association of Home Builders Research Center explains cost-effective techniques for construction waste management. This 32-page field guide presents several approaches builders can take to manage construction waste and provides real case studies to support the recommended actions. Appendices contain references and supporting documents. www.ilsr.org/recycling/buildingdebris.pdf

30. Builder's Guide to Reuse and Recycling: A Directory for Construction and Demolition Materials (Non-EPA Publication) This 36-page booklet was produced by the Alameda (California) County Waste Management Authority/Alameda County Source Reduction and Recycling Board. provides practical, cost-saving tips for building professionals on recycling asphalt, glass, and related materials. <http://www.stopwaste.org/nhguide.html>
31. Construction and Demolition Waste Publications Conditionally exempt small quantity generator (CESQG) hazardous waste may be managed at construction and demolition waste landfills if the landfills comply with federal regulations 40 CFR Part 257. <http://www.epa.gov/tribalmsw/pdfxt/40cfr257.pdf>
32. Resource Efficient Residential Construction: Industry Web Directory. The Peaks to Prairies Residential Environment Web Site provides the following services: technical assistance and referrals, industry contacts, database of resources and publications, news, events calendar, and frequently asked questions <http://peakstoprairies.org/p2bande/construction/CnstrMatrix.pdf>
33. Video training package prepared for use by developers, homebuilders, architects and planners, and government plan approval authorities to train their staffs in the basic principles of pollution prevention and environmental compliance for homebuilding projects. Topic areas include the environmental impacts of homebuilding, best management practices for habitat preservation and stormwater management, as well as best management practices for erosion and sediment control. www.mcet.org/spec_project/mbicap.htm#Homebuilders
34. Resource efficient building practices will allow residential construction professionals to meet consumer demand, increase profits, provide savings for the consumer and enhance marketing opportunities while using resources in a sustainable manner. <http://peakstoprairies.org/p2bande/construction/>

Other Waste Related Issues – Mining Waste in Indian Country

35. Many tribes have mineral resources on their lands and have either experienced mining activities in the past or plan to engage in mining in the future. Mining activities generate waste from the ore or mineral extraction process and from beneficiation (i.e., ore separation from overburden and host rock as well as concentration activities to purify the metals). Mining can create environmental problems such as acid mine drainage, erosion, dust emission, and surface- and ground-water contamination. The page provides access to publications and regulations that will help you meet the challenges of managing mining waste. <http://www.epa.gov/tribalmsw/pdfxt/biblio.pdf>
36. **Mining Waste Rulemaking Docket Supporting Documentation.** These documents contain technical background information covering EPA's mining waste rulemakings and Report to Congress. These documents identify waste streams produced by mineral processing, potential for mismanagement, waste disposal practices, and human health and environmental damages. <http://www.epa.gov/epaoswer/other/mining.htm>

37. Land Disposal Restrictions, Phase IV, Proposed Rule - Treatment Standards Proposed for Toxicity Characteristic (TC) Metal and Mineral Processing Wastes - April 1997. The proposed rule addresses treatment standards for certain metal wastes and wastes from mineral processing and discusses how the proposed Universal Treatment Standards would apply to wastes from mineral processing operations. Links to proposed rule, a fact sheet on the proposed rule, and technical background documents.
<http://www.epa.gov/epaoswer/hazwaste/ldr/ldr-rule.htm>

Other Waste Related Issues – Military Munitions Waste

38. If you have military firing ranges on your lands, you should be aware of proper military munitions waste management. Military munitions waste consists of ammunition products and components produced for or used by the military, including unused, damaged, or fired munitions. It includes bombs, rockets, artillery ammunition, small arms ammunition, and mines.
<http://www.epa.gov/epaoswer/hazwaste/military/index.htm>
39. Military Munitions Regulations. EPA has finalized regulations that clarify when conventional and chemical military munitions become a hazardous waste under the Resource Conservation and Recovery Act (RCRA). Additionally, this rule amends existing regulations regarding emergency responses and RCRA manifest requirements
1. Military Munitions Final Rule (62 FR 6622: February 12, 1997)
<http://www.epa.gov/docs/fedrgstr/EPA-WASTE/1997/February/Day-12/f3218.htm>
 2. Environmental Fact Sheet: EPA Finalizes Regulations under RCRA for Military Munitions. http://www.epa.gov/epaoswer/hazwaste/military/muns_fs.txt
 3. Department of Defense Policy to Implement the EPA's Military Munitions Rule. This document interprets the requirements of EPA's Military Munitions Rule and establishes Department of Defense policy for the management of waste military munitions.
<https://www.denix.osd.mil/denix/Public/Policy/Range/1july98mrip.html>

Other Waste Materials – Radioactive Materials

40. The Transportation Resource Exchange Center (T-REX) is a comprehensive Web site where you will find the answers to complex questions surrounding radioactive materials transportation. <http://trex-center.org/> and <http://trex-center.org/>

Waste – Tribal Organizations

41. Solid Waste Alaska Network provides training, funding, and educational material for Alaska Native Villages www.ccthita-swan.org
42. Tribal Association on Solid Waste and Emergency Response works with tribal solid waste and emergency response needs at the national and regional levels, seeks cooperation from other federal agencies on tribal solid waste and emergency response

issues, promotes tribal solid waste and emergency response programs, and creates partnership among tribes, states, and local governments. www.taswer.org/

Schools – Primary and Secondary

43. EPA's Healthy School Environments Web pages are intended to serve as a gateway to on-line resources to help facility managers, school administrators, architects, design engineers, school nurses, parents, teachers and staff address environmental health issues in schools. <http://cfpub.epa.gov/schools/index.cfm>

Schools – Higher Education

44. The American Indian Higher Education Consortium represent 34 colleges in the United States and one Canadian institution. www.aihec.org/college.htm
45. The American Indian Science & Engineering Society is a national, nonprofit organization which nurtures building of community by bridging science and technology with traditional Native values. www.aises.org/index.html
46. The Bureau of Indian Affairs's Office of Indian Education Programs is responsible for line direction and management of all BIA education functions including the formation of policies and procedures, supervision of all program activities undertaken within the office's jurisdiction and the approval of the expenditure of funds appropriated for the BIA Indian education functions. www.oiep.bia.edu/www.oiep.bia.edu/
47. The Office of the White House Initiative on Tribal Colleges and Universities leads the implementation of Executive Order 13270, ensuring that the nation's Tribal Colleges and Universities (TCU) are more fully recognized and have full access to federal programs benefitting other higher education institutions. www.ed.gov/about/inits/list/whhc/edlite-index.html
48. EPA's Colleges and University Sector Strategy Web site. A partnership to assist colleges and universities advance the use of environmental management systems, reduce regulatory performance barriers, and measure environmental progress. www.epa.gov/sectors/colleges/index.html

Schools – Asbestos

49. EPA's comprehensive Web site designed to provide information to regulators, parents and schools about asbestos in schools. Including *Federal Requirements for Asbestos Management in Schools* and *20 Frequently Asked Questions About Asbestos in Schools*. www.epa.gov/asbestos/asbestos_in_schools.html
50. Common Questions on the Asbestos NESHAP www.epa.gov/region04/air/asbestos/asbqa.htm

Schools – Disposal of Spent Laboratory Chemicals

51. Chemicals are used by in science classrooms and laboratories; in art classrooms; in vocational shops such as autobody, auto repair, and printing; and in facility maintenance and operations such as cleaning, painting, and pest control. Thoughtful chemical purchasing and proper chemical use and management (storage, labeling, disposal) is critical for reducing chemical exposures and accidents.
http://cfpub.epa.gov/schools/top_sub.cfm?t_id=361
52. An introduction to toxic chemicals and environmental health risks you might encounter in everyday life, in everyday places. National Library of Medicine, National Institutes of Health <http://toxtown.nlm.nih.gov/index.html>

Schools – Lead Based Paint

53. How Mother Bear Taught the Children about Lead – An educational activity book on lead based-paint prevention. Designed for Native American Children in grades 3-4, the activity book teaches children to protect themselves and their siblings
<http://www.niehs.nih.gov/kids/bear/home.htm>
54. Little Moccasins – A Lead Poisoning Prevention Manual for Tribal Day Cares and Families. A part of EPA's First Steps Program. Contact Phillip Quint with the Lead-Housing-Sanitation Director, Houlton Band of Maliseet Indians at 207.532.7260 or quint@ainop.com
55. Integrated Pest Management (IPM) in Schools. EPA is encouraging school officials to adopt Integrated Pest Management (IPM) practices to reduce children's exposure to pesticides used in schools <http://www.epa.gov/pesticides/ipm/>
56. EPA's training courses regarding lead-safe work practices during renovation, remodeling, rehabilitation, maintenance, sampling/evaluation, and abatement
<http://www.epa.gov/lead/traincert.htm>
57. EPA's Lead Awareness Program designs outreach activities and educational materials, awards grants, and manages a toll-free hotline to help parents, home owners, and lead professionals learn what they can do to protect their families, and themselves, from the dangers of lead. <http://www.epa.gov/lead/leadpbed.htm>
58. EPA's Lead Awareness Program Web site provides information about lead, lead hazards, and provides some simple steps to protect your family. For basic information start with the links to the right. For more specific information, and to search for and download documents use the links on the left. <http://www.epa.gov/lead/index.html>
59. Federal lead-based paint rules and regulations <http://www.epa.gov/lead/regulation.htm>
60. The National Lead Information Center (NLIC) provides the general public and professionals with information about lead hazards and their prevention. Call 1-800-424-LEAD (5323). NLIC operates under a contract EPA, with funding from EPA, the

Centers for Disease Control and Prevention, and the Department of Housing and Urban Development. <http://www.epa.gov/lead/nlic.htm>

61. EPA's Regional Lead Coordinators oversee the development of lead-poisoning prevention efforts and coordination with tribes, states, and local governments. <http://www.epa.gov/lead/leadoff1.htm>
62. EPA's Office of Children's Health Protection provides information and tools to the public; supporting community actions to protect children; increasing the ability of health care providers to identify, prevent, and reduce environmental health threats to children; engaging youth in children's environmental health protection; and working with states to develop programs to address children's environmental health issues. <http://yosemite.epa.gov/ochp/ochpweb.nsf/homepage>
63. The Department of Housing and Urban Development's Office of Healthy Homes and Lead Hazard Control brings together health and housing professionals to eliminate lead-based paint hazards in privately-owned and low-income housing. <http://www.hud.gov/offices/lead/index.cfm>
64. The Occupational Health and Safety Organization's Web site dealing with lead <http://www.osha.gov/SLTC/lead/index.html>
65. Healthy Schools Network, Inc. is a national not for profit organization, centered on children's environmental health. <http://www.healthyschools.org/>
66. National Safety Council. Comprehensive information about lead based paint. www.nsc.org/issues/lead/index.htm

Schools – Pesticides

67. Integrated Pest Management (IPM) in Schools. An EPA priority to protect children's health from unnecessary exposure to pesticides that are used in their schools to control pests. EPA is encouraging school officials to adopt IPM practices to reduce children's exposure to pesticides <http://www.epa.gov/pesticides/ipm/>
68. Washington State Pesticide Notification Requirement. Public schools and licensed day cares in Washington are required to establish a system for notifying parents and employees of pesticides being used on school grounds. They are required to: Provide annual written notice to parents, guardians, and employees of the school's pest control policies and methods, including how they will notify interested parents and Post information at least 48 hours before application. <http://www.govlink.org/hazwaste/interagency/ipm/schoolIPM.html>
69. Integrated Pest Management Information Service <http://www.efn.org/~ipmpa/>

Public Water Systems

70. Tribal Public Water System & Underground Injection Control Programs. The place to start and obtain information about federal regulation of public water systems in Indian country, including EPA direct implementation and tribal primacy.
<http://www.epa.gov/safewater/tribal/history.html>
71. EPA's Office of Ground Water & Drinking Water web site for small drinking water systems. Information to help small drinking water systems
<http://www.epa.gov/ogwdw/smallsys/ssinfo.htm>
72. Drinking Water Quality in Indian Country: Protecting the Sources. One part of providing safe water at the tap is preventing contamination of the source.
<http://www.epa.gov/safewater/protect/tribe.html>
73. EPA's Drinking Water Academy provides classroom and Web-based training and materials pertaining to SDWA implementation.. <http://www.epa.gov/safewater/dwa.html>
74. EPA's Drinking Water Infrastructure Grants Tribal Set-Aside Program
<http://www.epa.gov/safewater/tribes.html>
75. EPA Region 10 Tribal Water Program
<http://yosemite.epa.gov/r10/water.nsf/bbb2e0bec35db236882564f700671163/655b3ea54e3ba0a388256a8c007ac4be?OpenDocument>

Public Water Systems – Tribal and Other Non-Federal Organizations

76. Native American Water Association provides tribal water and wastewater operators, managers, administrators, utility commissions and Tribal Councils with continued training and technical assistance in their goals to: strengthen tribal sovereignty, self-determination and protect health and environment in Indian country.
www.nawainc.org/
77. US Geological Survey Drinking Water Programs
<http://water.usgs.gov/owq/dwi/>
78. Association of State Drinking Water Administration Internet Resources
<http://www.asdwa.org/links.html>
79. Office of Water Programs, a non-profit organization operating under the California State University, Sacramento Foundation, provides training and materials for water treatment plants, water distribution systems, wastewater collection systems, and municipal and industrial wastewater treatment and reclamation facilities. Training also for pretreatment facility inspectors and environmental compliance inspectors. Special training materials and programs are available for utility managers. Correspondence training courses, distance learning courses, certificate courses, continuing education and contact hours opportunities for operators, supervisors, managers and administrators.
<http://www.owp.csus.edu/>

80. National Drinking Water Clearinghouse at West Virginia University helps small communities by collecting, developing, and providing timely information relevant to drinking water issues. Intended for communities with fewer than 10,000 residents and the organizations who work with them. Training and free telephone consultation and training. Sponsored by the USDA's Rural Utilities Service.
<http://www.nesc.wvu.edu/ndwc/>
81. Small Utilities Service Corporation received an EPA grant to provide specific training and technical assistance to water systems located in Indian country (which for this grant this means inside of existing reservation boundaries) in Oregon, Washington, Idaho, and Alaska. www.susc.org/REG_X.html

Wastewater Management

82. Links to EPA's Office of Wastewater Management tribal financial assistance programs and initiatives, contacts, publications and success stories
<http://www.epa.gov/owm/mab/indian/index.htm>

General Compliance and Technical Assistance Material

83. Tribal Environmental and Natural Resource Assistance Handbook provides information on federal sources of both technical and financial assistance related to environmental management. <http://www.epa.gov/indian/tribhand.htm>
84. Everything You Wanted to Know About Environmental Regulations...But Were Afraid to Ask. Reference guide assists tribes with environmental issues facing their communities. It offers brief, clear information on many topics and alerts tribes where to turn for in-depth information and assistance.

Training – General

85. EPA's National Enforcement Training Institute trains federal, state, tribal, and local lawyers, inspectors, civil and criminal investigators, and technical experts in the enforcement of the Nation's environmental laws. Provides a comprehensive and integrated approach to training, in which enforcement and compliance personnel are trained in a range of specialties in order to work together more effectively as a team.
www.epa.gov/compliance/training/neti/index.html
86. Emergency Management Framework for Tribal Governments course offered August 2-5, 2004. The Federal Emergency Management Agency (FEMA) is providing free-training to tribal members who have emergency management responsibilities.
www.fema.gov/tribal/framework.shtm
87. Western Community Policing Center – Tribal Training Program – promotes safe, healthy, and stable Indian reservation communities by providing tribal justice systems with the

funding and technical assistance necessary to effectively reduce crime and administer justice. www.tribaltraining.com/project.htm

88. Agency for Toxic Substances and Disease Registry (ATSDR) Tribal Environmental Health Education Program www.atsdr.cdc.gov/tribal/docs/finalfactsheet_2page.pdf

Training – Water Quality

90. The Alaska Regional Office of Native American Fish & Wildlife Society is in the fifth year of providing training to Alaskan Native villages on water quality assessment and monitoring. <http://alaska.nafws.org/monitoring.html>

Training – National Environmental Policy Act

91. NEPA – Participating in the National Environmental Policy; Developing a Tribal Environmental Act” www.codetalk.fed.us/HalpinNelson-Session2.ppt

Pesticides

92. The National Agriculture Compliance Assistance Center is the "first stop" for information about environmental requirements that affect the agricultural community. The Ag Center was created by EPA with the support of the Department of Agriculture. www.epa.gov/agriculture/
93. EPA’s main pesticide homepage. <http://www.epa.gov/pesticides/>
94. EPA’s Office of Pesticide Program’s goal is to help tribes resolve pesticide issues regardless of whether they have an established pesticide program. To further that goal, OPP directly funds tribal program projects and provides EPA liaison to the Tribal Pesticide Program Council. <http://www.epa.gov/oppfead1/tribes/>
 1. OPPT’s publications – <http://www.epa.gov/opptintr/tribal/pubs.html>
95. Tribal Pesticide Program Council is a tribal technical resource and program and policy dialogue and development group, focused on pesticide issues and concerns. It is composed of authorized representatives from federally recognized tribes and Indian nations and intertribal organizations. <http://www.epa.gov/oppfead1/tribes/tppc.htm> or <http://www.epa.gov/oppfead1/tribes/tppc.htm>
96. Guidance on Basic Elements of an EPA-Funded Tribal Pesticide Program. This guidance document describes basic elements for an EPA-funded tribal pesticide program. It is intended primarily for use by EPA regional staff as they provide assistance to tribes that are assessing their pesticide program needs, negotiating EPA/tribal cooperative

agreements, and implementing pesticide programs where they are desired and needed.
<http://www.epa.gov/oppfead1/tribes/guidance.htm>

97. National Pesticide Information Center. <http://npic.orst.edu/>
98. Tribal Pesticide Project Grants. Both tribal and state continuing pesticide programs are funded through cooperative agreements between the tribe or state and EPA's Office of Enforcement and Compliance Assurance.
<http://www.epa.gov/oppfead1/tribes/grants.htm>
99. The Forum on State and Tribal Toxics Action is a partnership between EPA's Office of Pollution Prevention and Toxics and state and tribal leaders to increase understanding and improve collaboration on toxics and pollution prevention issues among the states, tribes, and EPA. <http://www.epa.gov/opptintr/tribal/fostta.htm>
100. OPP's list of tools and models for pesticide programs.
<http://www.epa.gov/epahome/datatool.htm>
101. OPPT Programs, Resources, and Grant Opportunities for Indian Tribes
<http://www.epa.gov/opptintr/tribal/pubs.html>
102. Pesticide Action Network Pesticide Database web site. Has current toxicity and regulatory information on pesticides. The PAN Pesticide Database brings together a diverse array of information on pesticides from many different sources. Not peer reviewed. <http://pesticideinfo.org/>
103. National Pesticide Information Center. Pesticide Fact Sheets (Pesticide Information Profiles). NPIC fact sheets are designed to answer questions that are commonly asked by the general public about pesticides and pesticide related topics. These documents are intended to be education in nature and helpful to consumers making decisions about pesticide use. To view Fact Sheets, Adobe Acrobat is needed. Links to: toxicity and active ingredient fact sheets, health information databases, environmental and chemical properties databases, product label and MSDS databases, statistics and sites with additional technical information. <http://npic.orst.edu/>
104. Through the CalEPA Department of Pesticide Regulation Web site, information on U.S. EPA pesticide registration can be accessed from U.S. EPA databases. It is possible to look up the regulatory status of registered pesticides. There is a link available to a pesticide label database where EPA accepted pesticide labels can be viewed.
<http://www.cdpr.ca.gov/docs/epa/m2.htm>

National Environmental Policy Act

105. EPA's Office of Federal Activities Web site provides information on NEPA compliance program. EPA is responsible for coordinating EPA's review of all Environmental Impact Statements (EISs) prepared by other federal agencies; maintaining a national EIS filing system and publishing weekly notices of EISs available for review and summaries of

EPA's comments; and assuring that EPA's own actions comply with NEPA and other environmental requirements <http://www.epa.gov/compliance/nepa/index.html>

106. The White House Council on Environmental Quality's NEPAnet Tribal Information. Provides information on CEQ Guidance and Executive Orders Related to Native Americans. <http://ceq.eh.doe.gov/nepa/tribes.htm>
107. Tribal Environmental Review Clinic. Provide general information about the TERC training, a project of the Tulalip Tribes. The TERC is being developed to help protect tribal natural and cultural resources through informed and leveraged participation in the National Environmental Policy Act (NEPA), and to assist tribes in the development of internal environmental review practices (i.e., TEPA-based policies) that meet their organizational and cultural needs.
http://www.tulalip.nsn.us/TERC%20Web%20Pages_files/TERC%20Web%20Pages_files/Home%20Page.htm
 1. NEPA and TEPA handbook.
http://www.tulalip.nsn.us/TERC%20Web%20Pages_files/TERC%20Web%20Pages_files/Home%20Page_files/Page494.htm

EPA Regional Tribal Program Contacts

108. American Indian Environmental Office. Jeff Besougloff at 202-564-0292 or besougloff.jeff@epa.gov www.epa.gov/indian

140. American Indian Liaison Office at the National Park Service seeks to improve relationships between American Indian Tribes, Alaska Natives, Native Hawaiians and the National Park Service through consultation, outreach, technical assistance, education, and advisory services. www.cr.nps.gov/ailo/ailohome.htm
141. Map of Indian Country <http://www.cr.nps.gov/nagpra/DOCUMENTS/INDEX.htm>

Department of Justice

142. The Office of Tribal Justice (OTJ) at the Department of Justice provides a single point of contact within the Justice Department for meeting the broad and complex federal

responsibilities owed to Indian tribes. OTJ, in cooperation with the Bureau of Indian Affairs, serves to unify the federal response. www.usdoj.gov/otj/index.html

Department of Labor

143. Division of Indian and Native American Programs in the Employment & Training Administration provides quality employment and training services to Native American communities that not only meet regulatory requirements, but also are administered in ways that are consistent with the traditional cultural values and beliefs of the people they are designed to serve. <http://www.doleta.gov/DINAP/>

Department of Transportation

144. Federal Highway Administration, Department of Transportation. Provides guidance and technical assistance to tribes about transportation concerns. www.fhwa.dot.gov/hep/tribaltrans/index.htm

Environmental Protection Agency

145. American Indian Environmental Office coordinates the Agency-wide effort to strengthen public health and environmental protection in Indian Country, with a special emphasis on building Tribal capacity to administer their own environmental programs. www.epa.gov/indian

Federal Communications Commission

146. Federal Communications Commission. A resource for tribal governments, organizations and consumers in expanding telecommunication services in Indian country. www.fcc.gov/indians/

United States Congress Resources

147. United States Senate – Committee on Indian Affairs Committee has jurisdiction to study the unique problems of American Indian, Native Hawaiian, and Alaska Native peoples and to propose legislation to alleviate these difficulties. These issues include, but are not limited to, Indian education, economic development, land management, trust responsibilities, health care, and claims against the United States. <http://indian.senate.gov/index.html>
148. Office of Native American and Insular Affairs – Committee on Resources – United States House of Representatives <http://resourcescommittee.house.gov/subcommittees/naia.htm>

Library of Congress

149. The Library of Congress' Guide to Law Online is a selective, annotated compendium of Internet links offers the full texts of laws, regulations, and court decisions, along with commentary from lawyers writing primarily for other lawyers. Materials related to law

and government that were written by or for lay persons also have been included, as have government sites providing general information. www.loc.gov/law/guide/usnative.html

Tribal Organizations Engaged in Environmental Issues

150. Alaska Inter-Tribal Council is a statewide consortium of First Nations, which share a common bond with unique cultures, language, spirituality, and traditional values, declare our intent to proactively advocate for protect, defend, and enhance our inherent rights, as self-determining tribal sovereigns Through self-empowerment, we shall continue to embrace our traditional values, knowledge, and wisdom to guide our role as stewards of our homeland, our culture, language and way of life. <http://www.aitc.org/>
151. Indigenous Environmental Network seeks to build the capacity of Indigenous communities and tribal governments to develop mechanisms to protect sacred sites, land, water, air, natural resources, health of both our Indigenous People and all living things, and to build economically sustainable communities. www.ienearth.org/wardvly4.html
152. Columbia River Inter-Tribal Fisheries Enforcement is dedicated to the protection of tribal treaty fishing rights and enforcement of all fishing regulations. CRITFE officers are Oregon certified police officers and serve as an extension of tribal law enforcement. CRITFE's constituency consists of tribal members exercising treaty fishing rights in the Columbia River Basin. Enforcing fishing regulations plays a vital role in salmon restoration. <http://www.critfc.org/>
153. Council of Energy Resource Tribes's mission is to support Tribes as they develop their management capabilities and use their energy resources as the foundation for building stable, balanced, self governing economies. <http://www.certreearth.com/>
154. The Indigenous Environmental Network is an alliance of grassroots indigenous peoples whose mission is to protect the sacredness of Mother Earth from contamination and exploitation by strengthening maintaining and respecting the traditional teachings and the natural laws. <http://www.ienearth.org/>
155. Inter-Tribal Environmental Council's mission is to protect the health of Native Americans, their natural resources, and their environment as it relates to air, land and water. To accomplish this mission ITEC provides technical support, training and environmental services in a variety of environmental disciplines. Currently, there are thirty-two ITEC member tribes in Oklahoma and Texas. <http://www.itecmembers.org/>
156. Institute for Tribal Environmental Professionals at Northern Arizona University was established in 1992 with a vision to assist Indian Tribes in the management of their environmental resources through effective training and education programs. <http://www4.nau.edu/itep/>
157. Great Lakes Indian Fish and Wildlife Commission is an agency of eleven Ojibwe nations in Minnesota, Wisconsin, and Michigan, with off reservation treaty rights to hunt, fish and gather in treaty-ceded lands. GLIFWC assists its member bands in the

implementation of off-reservation treaty seasons and in the protection of treaty rights and the natural resources. GLIFWC provides natural resource management expertise, conservation enforcement, legal and policy analysis, and public information services. www.glifwc.org/

158. The Midwest Treaty Network was founded in 1989 as an alliance of Indian and non-Indian groups supporting Native American sovereignty in the western Great Lakes region. <http://www.treatyland.com/>
159. The Midwest Tribal Aquaculture Network is composed of a group of Tribal Fish Hatchery Biologist who are interested in promoting fish rearing techniques for Tribal hatchery programs. The primary means by which the MTAN helps tribal hatchery employees, is by sharing fish culture information through this quarterly newsletter. <http://midwest.fws.gov/ashland/mtan/mtanhome.html>
160. Mni Sose Intertribal Water Rights Coalition, Inc. (Mni Sose) Mni Sose assists Tribes in the protection of their rights to the use of Missouri River water, tributaries, and groundwater located on, near, and under their respective reservations. The Coalition also addresses all issues and matters related to their reserved water rights in a broad and comprehensive manner. <http://www.mnisose.org/>
161. National Congress of American Indians (NCAI): The National Congress of American Indians was founded in 1944 and is the oldest and largest tribal government organization in the United States. NCAI serves as a forum for consensus-based policy development among its membership of over 250 tribal governments from every region of the country. NCAI's mission is to inform the public and the federal government on tribal self-government, treaty rights, and a broad range of federal policy issues affecting tribal governments. www.ncai.org
162. National Tribal Environmental Council is a membership organization dedicated to working with and assisting tribes in the protection and preservation of the reservation environment. NTEC's mission is to enhance each tribe's ability to protect, preserve and promote the wise management of air, land and water for the benefit of current and future generations. www.ntec.org/
163. National Tribal Environmental Research Institute (NTERI) was developed to promote informed deliberation and comment on important federal and other proposed laws, rules, actions initiatives, and programs. <http://www.neri.net/>
164. National Tribal Environmental Council (NTEC): The National Tribal Environmental Council (NTEC) was formed in 1991 as a membership organization dedicated to working with and assisting tribes in the protection and preservation of the reservation environment. NTEC's mission is to enhance each tribe's ability to protect, preserve and promote the wise management of air, land and water for the benefit of current and future generations. www.ntec.org

165. Native American Fish and Wildlife Society (NAFWS) NAFWS is a non-profit membership organization who exists for the protection, preservation and enhancement of Native American fish and wildlife resources. <http://www.nafws.org/>
166. Northwest Indian Applied Research Institute (Institute) The Institute's mission is to serve the interests of the area's tribes, by applying the principles of applied research, putting theory into practice, and making available college and community resources to address the needs of Washington State tribes and Native people. <http://www.evergreen.edu/nwindian/index.html>
167. Northwest Indian Fisheries Commission (NWIFC). The NWIFC is primarily a support service organization that provides direct services to its member tribes to assist them in their natural resource management efforts. Approximately 70 full-time employees provide services to member tribes through an economy of scale that enables tribes to efficiently use the limited federal funding provided for their natural resource management activities. In addition, the commission provides services to non-member tribes through coordination of several statewide programs. <http://nwifc.wa.gov/>
168. United South and Eastern Tribes, Inc. (USET). USET is dedicated to promoting Indian leadership, improving the quality of life for American Indians, and protecting Indian rights and natural resources on tribal lands. Although its guiding principle is unity, USET plays a major role in the self-determination of all its member Tribes by working to improve the capabilities of Tribal governments. <http://www.usetinc.org/>
169. Western Regional Air Partnership – Tribal Resources www.wrapair.org/tribal/

Other Environmental Web sites

170. Native web. NativeWeb is an international, nonprofit, educational organization dedicated to using telecommunications including computer technology and the Internet to disseminate information from and about indigenous nations, peoples, and organizations around the world; to foster communication between native and non-native peoples; to conduct research involving indigenous peoples' usage of technology and the Internet; and to provide resources, mentoring, and services to facilitate indigenous peoples' use of this technology. <http://www.nativeweb.org/info/>
171. Native Americas Journal is the award-winning publication/magazine of Akwe:kon Press of the American Indian Program at Cornell University. It features articles that cover the most important and critical issues of concern to Native American (indigenous/aboriginal) peoples throughout the Western Hemisphere, synthesizing the many voices, perspectives and streams of information that currently permeate the communication highways. <http://nativeamericas.com/nativeamericas.html>

Chapter III - Enforcement Resources

A. General Resources

1. Audit Policy Information:
<http://epa.gov/compliance/incentives/auditing/auditpolicy.html>
2. "Enforcement Alert," an informational newsletter:
<http://epa.gov/compliance/resources/newsletters/civil/enfalert/index.html>
3. Enforcement Models (used for analysis of financial issues that impact enforcement actions):
<http://www.epa.gov/compliance/civil/programs/econmodels/index.html>
4. Multimedia Investigation Manual:
<http://www.epa.gov/compliance/resources/publications/civil/programs/mmmall.pdf>
5. Civil Enforcement Policies and Guidance:
<http://www.epa.gov/compliance/resources/policies/civil/index.html>
6. Supplemental Environmental Projects (SEPs):
<http://www.epa.gov/compliance/civil/programs/seps/index.html>
7. Small Business Compliance and Enforcement:
<http://www.epa.gov/compliance/incentives/smallbusiness/index.html>

B. Clean Water Act - Wet Weather

1. Enforcement Alert: Finding Many Industrial Dischargers Failing to Obtain Storm Water Permits as Law Requires" Volume 4, Number 1 (January 2001)
<http://www.epa.gov/oeca/resources/publications/civil/programs/wwrefmaterials.html>
2. General Information
<http://www.epa.gov/oeca/civil/programs/cwa/wetweather.html>

C. Clean Air Act - NSR/PSD

1. Timely and Appropriate (T&A) Enforcement Response to High Priority Violations (HPVs):
<http://www.epa.gov/Compliance/resources/policies/civil/caa/stationary/issue-ta-rpt.pdf>
2. Enforcement Alert: "Compliance with Permitting Critical to Clean Air Act Goals" Volume 2, Number 1 (January 1999)
<http://www.epa.gov/oeca/resources/newsletters/civil/enfalert/newsource.pdf>

3. Motiva, Equilon and Deer Park Refining Settlements :
<http://cfpub.epa.gov/compliance/resources/cases/civil/#572>
4. Koch Settlement:
<http://cfpub.epa.gov/compliance/resources/cases/civil/#572>
6. BP EXPLORATION & OIL INC. Consent Decree :
<http://cfpub.epa.gov/compliance/resources/cases/civil/#572>

D. RCRA - Mineral Processing

1. Hazardous Waste Civil Enforcement Response Policy (ERP):
<http://www.epa.gov/compliance/resources/policies/civil/rcra/finalerp1203.pdf>

E. Petroleum Refinery Sector

1. Enforcement Alert: "Compliance with Permitting Critical to Clean Air Act Goals" Volume 2, Number 1 (January 1999)
<http://www.epa.gov/compliance/resources/newsletter/civil/enfalert/emissions.pdf>
2. Enforcement Alert: "Proper Monitoring Essential to Reducing 'Fugitive Emissions' Under Leak Detection and Repair Programs" Volume 2, Number 9 (October 1999)
<http://www.epa.gov/oeca/resources/newsletters/civil/enfalert/newsources.pdf>

F. Tribal

Enforcement Guidance Related to Indian Country

1. *Protecting Public Health and the Environment Through Enforcement and Compliance Assurance in Indian Country, A Strategy for Results* (March 2004)
<http://www.epa.gov/compliance/planning/tribal/strategy.html>
2. Executive Order 13175, *Consultation and Coordination with Indian Tribal Governments* (November 2000) <http://www.epa.gov/fedrgstr/eo/eo13175.htm>
3. *EPA Policy for the Administration of Environmental Programs on Indian Reservations* (November 8, 1984) <http://www.epa.gov/superfund/tools/topics/relocation/policy.htm>
4. *Guidance on the Enforcement Principles Outlines in the 1984 Indian Policy* (January, 17, 2001) <http://www.epa.gov/compliance/planning/tribal/strategy.html>
5. EPA Region 4 Policy and Practices for Environmental Protection in Indian Country (November, 2001) http://www.epa.gov/region4/ead/indian/r4_policy.html

6. Region 5 Direct Implementation Strategy for Indian Country for Fiscal Year 2004
<http://www.epa.gov/Region5/tribes/>
7. EPA Region 8 Guidance for Compliance Monitoring, Compliance Assistance and Enforcement Procedures in Indian Country (January 10, 2001)
<http://www.epa.gov/region8/tribes/r8enf.html>
8. Region 10 Enforcement Procedures in Indian Country Guidance (May 28, 1998)
<http://yosemite.epa.gov/R10/enforce.NSF/Enforcement/Region+10+Enforcement+Procedures+in+Indian+Country>

Solid Waste – Tribal Codes

9. A Model Tribal Solid Waste Management Code by The Inter-Tribal Council of Arizona, Inc. A generic code which tribes can customize to suit their own situations and then enact. Designed to be comprehensive, covering many areas of solid waste management, such as recycling, landfill design and operation, and collection and transportation of solid waste. <http://www.itcaonline.com/>
10. Campo Indian Reservation Solid Waste Management Code
<http://www.epa.gov/tribalmsw/pdfxt/itc10746.txt>

Tribal Codes, Tribal Environmental Laws, and Federal Indian Law Links

11. Constitutions, Tribal Codes, and other legal documents related to Indian country compiles as a cooperative effort among the University of Oklahoma Law Center and the National Indian Law Library <http://thorpe.ou.edu/>
12. Cornell Legal Information Institute's list of legislation that pertains to Indian Law with links to the full text of the legislation. www.law.cornell.edu/topics/indian.html
13. Environmental Law Project www.law.und.nodak.edu/NPILC/telp.html
14. Findlaw's subject guide to Indian Law includes summaries of law, links to documents, briefs, articles and books, message boards, firms online, and a web guide.
<http://www.findlaw.com/01topics/21Indian/index.html>
15. Tribal Environmental Law Virtual Library at Vermont Law School offers tribal codes, rules, and laws. Also included are "model" or "template" codes and analytical papers by scholars and practitioners. http://www.vermontlaw.edu/elc/index.cfm?doc_id=166
16. Handbook of Federal Indian Law by Felix S. Cohen <http://thorpe.ou.edu/cohen.html>
17. National Tribal Environmental Council www.ntec.org/

18. Native American Treaties and Information compiled by the University of Colorado at Boulder <http://ucblibraries.colorado.edu/govpubs/us/native.htm>
19. Native American Constitution and Law Digitization Project. The Project is a cooperative effort among the University of Oklahoma Law Center, the National Indian Law Library (NILL), and Native American tribes providing access to the Constitutions, Tribal Codes, and other legal documents. <http://thorpe.ou.edu/>
20. Tribal codes and constitutions provided by the tribes under the auspices of the National Indian Law Library and its partners - the National Tribal Justice Resource Center and the University of Oklahoma Law Library.
 1. Constitutions – <http://www.narf.org/nill/tribaldocs.html#constitutions>
 2. Codes – <http://www.narf.org/nill/tribaldocs.html#codes>
21. Tribal Court Clearinghouse is designed as a resource for tribal justice systems and others involved in the enhancement of justice in Indian country. www.tribal-institute.org/
22. Tribal Ordinance/Code Development Resources of the Institute for Tribal Environmental Professionals at Northern Arizona University
http://www4.nau.edu/eeop/toed_resources.html
23. Building Support for the Development of the Hualapai Tribal Court by Michael S. Goldstein. Harvard Project on American Indian Economic Development.
http://www.ksg.harvard.edu/hpaied/pubs/pub_061.htm
24. The Native American Treaties and Agreements are a collection of Executive Orders, Treaties, Proclamations, and Memorandums concerning United States policy on Native American affairs. <http://ucblibraries.colorado.edu/govpubs/us/native.htm>
